WORK EXPERIENCE

Software Engineer II

Dec 2025 – Present

SimStar Asia Ltd, Karnataka, India

- Customized Odoo 18 ERP modules using Python, improving enterprise workflow automation.
- Engineered frontend ERP interfaces using JavaScript, XML, and OWL.
- Connected ERP systems with third-party enterprise APIs.
- Reduced transactional latency by 25% through PostgreSQL query tuning, improving overall system responsiveness.
- Configured role-based access controls and validation workflows.

Software Engineer I

Jul 2025 – Aug 2025

Serioton LLP [HAANAA], Haryana, India

- Delivered high-performance React Native modules for Real Money Gaming platforms.
- Applied MobX state management for real-time gameplay synchronization.
- Accelerated feature releases through cross-functional collaboration.

Senior Software Developer

Feb 2020 – Apr 2025

Techibears Pvt Ltd, Maharashtra, India

- Architected scalable backend systems using Django, FastAPI, ReactJS, and NextJS
- Delivered 5+ production-grade React Native applications.
- Enabled secure payment processing through Amazon PayFort, Razorpay, and MyFatoorah integrations.
- Designed multi-payment orchestration workflows.
- Provisioned AWS Lambda, EC2, and S3 infrastructure.
- Reduced API response latency through query optimization.
- Established CI/CD pipelines and automated testing systems.

SELECTED PROJECTS

Enterprise ERP Customization Platform (Odoo 18)

Python, Odoo 18, PostgreSQL, JavaScript, XML, OWL

- Customized ERP workflows across finance, inventory, and operations.
- Built backend business logic using custom models and server actions.
- Crafted OWL-based ERP dashboards and frontend interfaces.
- Connected third-party systems through secure API pipelines.
- Improved database performance for large-scale operations.

Pi-Play

React Native, NestJS, React.js, Angular, AWS

- Delivered sports booking and tournament registration workflows.
- Enabled Razorpay payment validation through webhooks.
- Executed Pi Coin rewards engine with multi-payment support.

VirtuScreening

Python, FastAPI, React.js, AWS Lambda

- Engineered serverless APIs for scalable screening workflows.
- Connected FastAPI backend with React.js frontend systems.
- Built distributed AWS Lambda processing pipelines.

Just Padel

Django REST Framework, React Native, React.js

- Built booking APIs for UAE sports court reservation workflows.
- Enabled Amazon PayFort webhook-based transaction validation.
- Built loyalty rewards, push notification, and email workflows.
